

WHAT?

WPC Scientific Update: Parkinson Pipeline Umbrella

Tuesday Sept. 30–Thursday Oct. 2, 2014.

Six lively and engaging sessions delivered via live webcast over three days right to your computer. Sessions will be archived for later use.

WHO?

Talks will be given in a crosstalk format similar to the morning plenary sessions delivered at each World Parkinson Congress. Speakers will be engaging and intellectually challenging yet speak in an accessible manner to a broad audience.

WHY DO THIS?

Delegates at the WPC 2013 and past Congresses have repeatedly asked us to “do more” and so we are now offering this exciting online program to address the need for scientific updates. One year after the WPC 2013 and two years out from the WPC 2016, there is a lot of progress in the world of science and Parkinson's, but it's not easy for everyone in the community to access it. It is our intention to change that.

WHERE?

Online. You will be able to watch this from the comfort of your home or office via live webcast during the week of the program and afterward, via archived sessions 24 hours, 7 days a week from the WPC website.

HOW TO REGISTER?

Registration is FREE and will open in July 2014 at www.worldpdcoalition.org/webcast.

About the World Parkinson Coalition®

The World Parkinson Coalition Inc. is a small nonprofit organization dedicated to designing and hosting an international forum every three years for members of the Parkinson's community to learn about the latest scientific discoveries, medical practices, caregiver initiatives and advocacy work related to Parkinson disease. By bringing physicians, scientists, nurses, rehabilitation specialists, caregivers and people with Parkinson disease together, we hope that our triennial World Parkinson Congresses help to create a worldwide dialogue that will expedite the discovery of a cure and better treatment practices for this devastating disease.

Join us at the WPC 2016 in Portland, Oregon, Sept. 20–23, 2016. Learn more at wpc2016.org.

WPC SCIENTIFIC UPDATE: Parkinson Pipeline Umbrella

Tuesday Sept. 30 – Thursday Oct. 2, 2014

Join us online for a one year anniversary scientific update following the WPC 2013
Learn about the scientific advances made over the last year, be inspired, and leave hopeful.

Tuesday, September 30

SESSION I: 12pm ET/ 9am PT

**Alpha-synuclein,
Neuron Killer or Tombstone?**

Discussant:

Marie Francoise Chesselet (USA)

Speakers:

Michael Schlossmacher (Canada)

Leonidas Stefanis (Greece)

Jeffrey Kordower (USA)

SESSION II: 2pm ET/ 11am PT

**Averting an Energy Crisis:
the Vital Role of Mitochondria in PD**

Discussant:

Serge Przedborski (USA)

Speakers

Miquel Vila (Spain)

Charleen Chu (USA)

Eric Schon (USA)

Continuing Education

The Deanery of Education and Continuing Professional Development of the Faculty of Medicine of the University of Montreal is fully accredited by the Association of Faculties of Medicine of Canada (AFMC) and from the Quebec College of Physicians.

For general practitioner/family medicine physicians, the Deanery of Education and Continuing Professional Development recognizes a maximum of 6 credit hours for the entire program of the "WPC Scientific Update 2014" when viewed LIVE by general practitioners/family medicine physicians, specialists, nurses, PTs, OTs, SLPs and others.

Full details on how to claim credits can be found at
www.worldpdcoalition.org/webcast

Wednesday, October 1

SESSION III: 12pm ET/ 9am PT

Therapeutics & Delivery Systems

Discussant:

Jon Palfreman (USA)

Speakers:

Peter LeWitt (USA)

Walter Maetzler (Germany)

Etienne Hirsch (France)

SESSION IV: 2pm ET/ 11am PT

Unblocking the Treatment Pipeline

Discussant:

David Iverson (USA)

Speakers:

Michael Schwarzschild (USA)

Charles Adler (USA)

Christopher Goetz (USA)

Thursday, October 2

SESSION V: 12pm ET/ 9am PT

**The Limits of Dopaminergic Disease
Modifying Strategies in a Non-motor
Symptom World**

Discussant:

Patrik Brundin (USA)

Speakers:

Oscar Gershanik (Argentina)

Ray Chaudhuri (UK)

David Burn (UK)

SESSION VI: 2pm ET/ 11am PT

Personalized Medicine

Discussant:

Bastiaan Bloem (Netherlands)

Speakers:

Ronald Pfeiffer (USA)

Jon Stoessel (Canada)

Roger Barker (UK)
